

ODP-0-1319

(2 OCT 1980)

MEMORANDUM FOR: Deputy Director for Administration

FROM: [REDACTED]

Acting Director of Data Processing

SUBJECT: ODP Report for Week Ending 30 September 1980

Joint RMS/OMB Budget Hearing

The ODP 1982 Budget Hearing was held on Monday, 29 September from 1030 to 1316 hours. The AD/ODP responded to all questions and a minimum number of written responses were requested. A copy of the breakout of CANS funding in the ODP budget, which was provided to PTO by ODP in response to an OMB question, was requested by our OMB examiner. Also, a breakout of our 1982 procurement schedule was requested by decision level. In addition, a breakout of 5266 and the new replacement Delta Data terminals by Directorate from 1982-1986 was requested. [REDACTED]

Support to OSWR

TADS (Telemetry Analysis Display System) Software maintenance has been negotiated with [REDACTED] ODP achieved substantial cost concessions from [REDACTED] and no tasking was dropped. The contract appears tight in schedule, cost, and required manhours. [REDACTED]

Computer Room Expansion

Expansion work in 1D16 is progressing. All walls have been removed except for the final wall, which will be removed after a combination door is installed. Demolition of the final wall is scheduled to start no later than 6 October and be completed in two days. This is the most critical period with regards to dust and debris affecting disk units in the 1D16 area. [REDACTED]

Firemen Tour Computer Centers

On Saturday, 27 September, personnel from Fairfax County Fire Department toured CIA Headquarters as a safety inspection in the event of an emergency. The ODP areas of interest were the Ruffing and Special Computer Centers and the 1D16 Annex. [REDACTED]

Heavy Workload Scheduled

STATINTL The production workload will be very heavy this weekend. Both GAS and PERSIGN will have major cutoffs. Production Control Branch will be working most of this weekend. Representatives of OF will also be present for the fiscal year-end processing of GAS. [REDACTED]

Army Briefed on GIMS

STATINTL Systems Programming Division personnel briefed Jim Hayes and Lt. Col. Taylor Steeles from the Army Safety Center, Fort Rucker, Alabama on 25 September. They learned about GIMS through contacts at Norton Air Force Base and were interested in its potential for solving some of their data base problems. [REDACTED]

Systems Availability

Beginning this week the attached Systems Availability Summary will be included in ODP's Weekly Report. [REDACTED] STATINTL
